WITH VIDEOFIED®,
APPreciate your security!

APPreciate VIDEOFIED SECURITY SYSTEMS

Videofied, a key player in the alarm system market!

Depending on the selected panel:
- Operates up to 4 years on one set of batteries
- Quick installation wireless or powered
- Alarm video sent over GPRS / IP / WIFI™
- Connected, accessible, portable, usable anywhere

1 On detection, the wide-angle camera records a colour video clip.

2 The video is sent to the monitoring station or one or more smartphones.

3 The monitoring operators and the end users can watch the video of the intrusion in real time, removing any doubt!

4 When there is a genuine intrusion, the monitoring station calls the police or required response…

Connected products that APPreciate your security!

With the smartphone APPLICATION, all Videofied products can be connected to your phone or your tablet.
What is happening at home ? Who is there? Did I arm my system?
The smartphone application integrates multiple functions, accessed remotely to meet your needs: check the status, arm or disarm your system, take photos or videos, store your images to view them later, temporarily disarm a room, etc…

With Videofied, be Autonomous, Interactive, Connected … and APPreciate your security!

CONTENTS

Quality

Videofied products comply with local and international certifications: CE, EN50131-Grade 2, NFA2P 2 boucliers (Europe), IDA (Singapore), A-Tick (Australia), ICASA (South Africa), FCC, IC, PTCRB (North America), and are manufactured in certified factories in France ISO9001 and ISO/TS16949.

MADE IN FRANCE

Recognized know-how!

RSI Video Technologies develops intruder alarm security solutions with a real dedication to technological innovation. Our products offer an innovative and unique concept in the world!
*From design to conception, through sale, our team is at your service. Over 20 years of experience make RSI Video Technologies a leading player in the sector. Our products have demonstrated their capability with **more than 500.000 systems already installed.***

W PANEL

APPRECIATE THE MODERN TECHNOLOGY!

The W panel is a wireless alarm system which adapts itself to the availability of transmission networks. During an intrusion, the W Panel is able to transmit alarms and videos on the ETHERNET network (and/or optionally Wifi™) or GPRS.

Keypads XMA / XMB are designed for configuring/ programming and operating Videofied security systems.

Arm and disarm a Videofied system…

PROXIMITY TAGS **VT**

Compatible with XL panel, XMB Keypad and BR Badge Reader.
REMOTE KEYFOB **RC**

With the keyfob, the user can arm and disarm the Videofied system remotely. It has an encrypted "rolling code" system that changes the actual signal sent to the panel every time it is used. It features audio feedback (beeping) at arming/disarming to verify communication with the panel and indicate entry/exit delay. The Remote includes a panic button feature.

XTO PANEL

PROTECT EXTERNAL SITES

The XTO control panel is a weatherproof, wireless, battery operated, hybrid alarm system. It is designed for outdoor commercial applications.

Examples of applications :
• *Construction sites*
• *Vacant buildings /properties*
• *Vehicle compounds*
• *Fenced compounds*
• *Substations*
• *Cell Towers*
• *Guard Enhancement*
• *Remote Facilities, Mines, Gravel Pits*
• *Agriculture*
• *Solar panels*
• *Copper Theft*
• *Petro/Chem*
• *Church roofs*

OUTDOOR MOTIONVIEWER OMV

No power required, 100% wirefree!

Since construction sites, vacant buildings, substations and all outdoor sites are usually uncontrolled environments, video verification is especially important to eliminate costly false alarms. Videofied's portability means it can be moved around as the project evolves – even if that means being installed months later at a brand new site!

OUTDOOR MOTIONVIEWER
